DETAILED ACTION

The submission of amendment filed on 4/18/2005 is acknowledged. At this point claim 1 has been amended, new claim 4 has been added and the remaining claims left unchanged. Thus, claims 1-4 are at issue in the instant application.

Allowable Subject Matter

Claims 1-4 are allowed.

The following is an examiner's statement of reasons for allowance:

Referring to Claim 1 the prior art to **US 5,901,836 to Taniuchi** discloses an illuminated electric part including a manipulating rotatable light-transmissive shaft having a display to be illuminated at a top and a coned light reflecting face and a light source arranged at a side of the shaft.

However, the instant application recites a shaft having a light incident faces including planes extending in a direction orthogonal to an optical path from the light source and wherein a coned light reflecting face having a top thereof which extends downwardly at the side thereof opposite to the incident faces.

This is not found in the prior art of record therefore the claim 1 is seemed patentable.

Claims 2-4 are allowed as claims depended on claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
